\* il y a cinq marches en arrière  
marche du singe

\* il y a quatre marches sur le côté complètes  
marche "comme les mages"

\* Fermeture apparente

• Face au nord

\* poids à droite

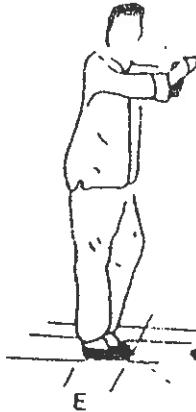

• inversion de la main droite

• pivot basan et pied gauche  
vers le nord ent

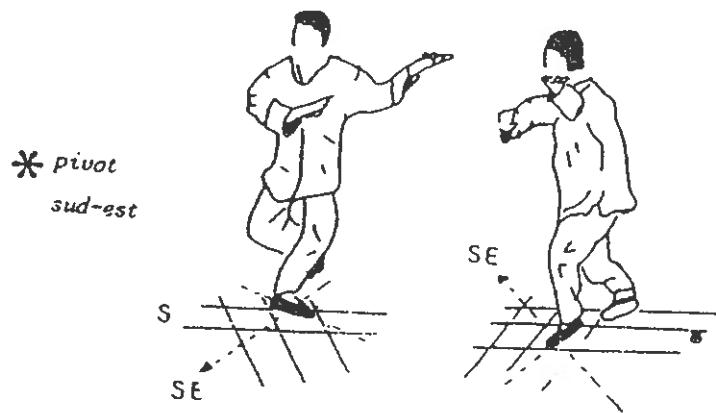

• mains séparées, dans l'axe

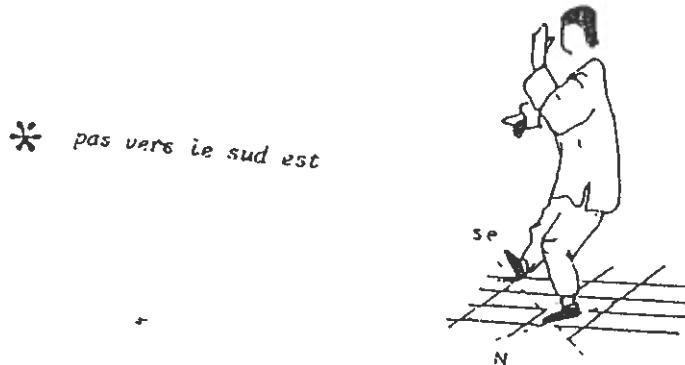

poids sur la jambe  
gauche  
\* ouverture du bras  
droit arrière (N.O.)

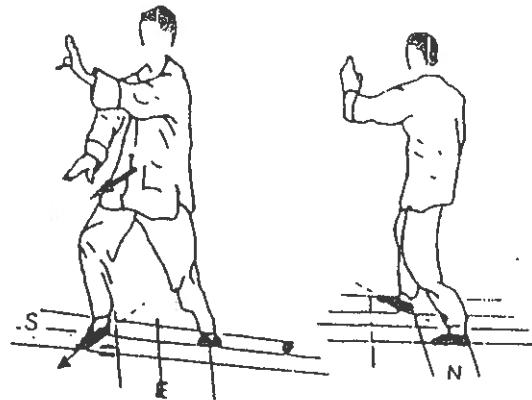

\* pivot  
sud-est

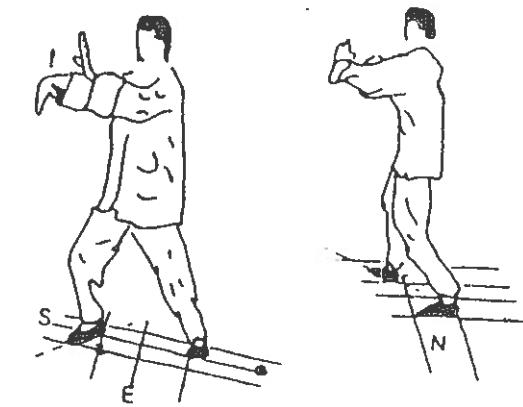

\* pas vers le sud est

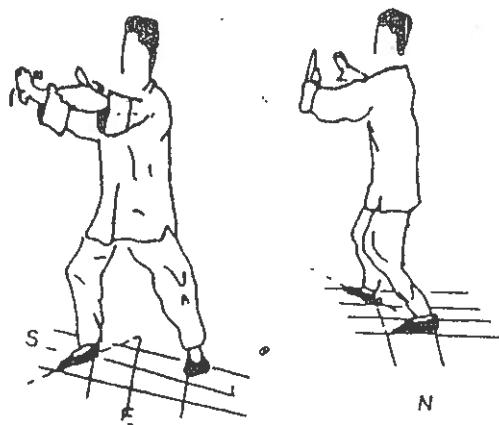

\* poussée, bassin face  
à l'angle sud est

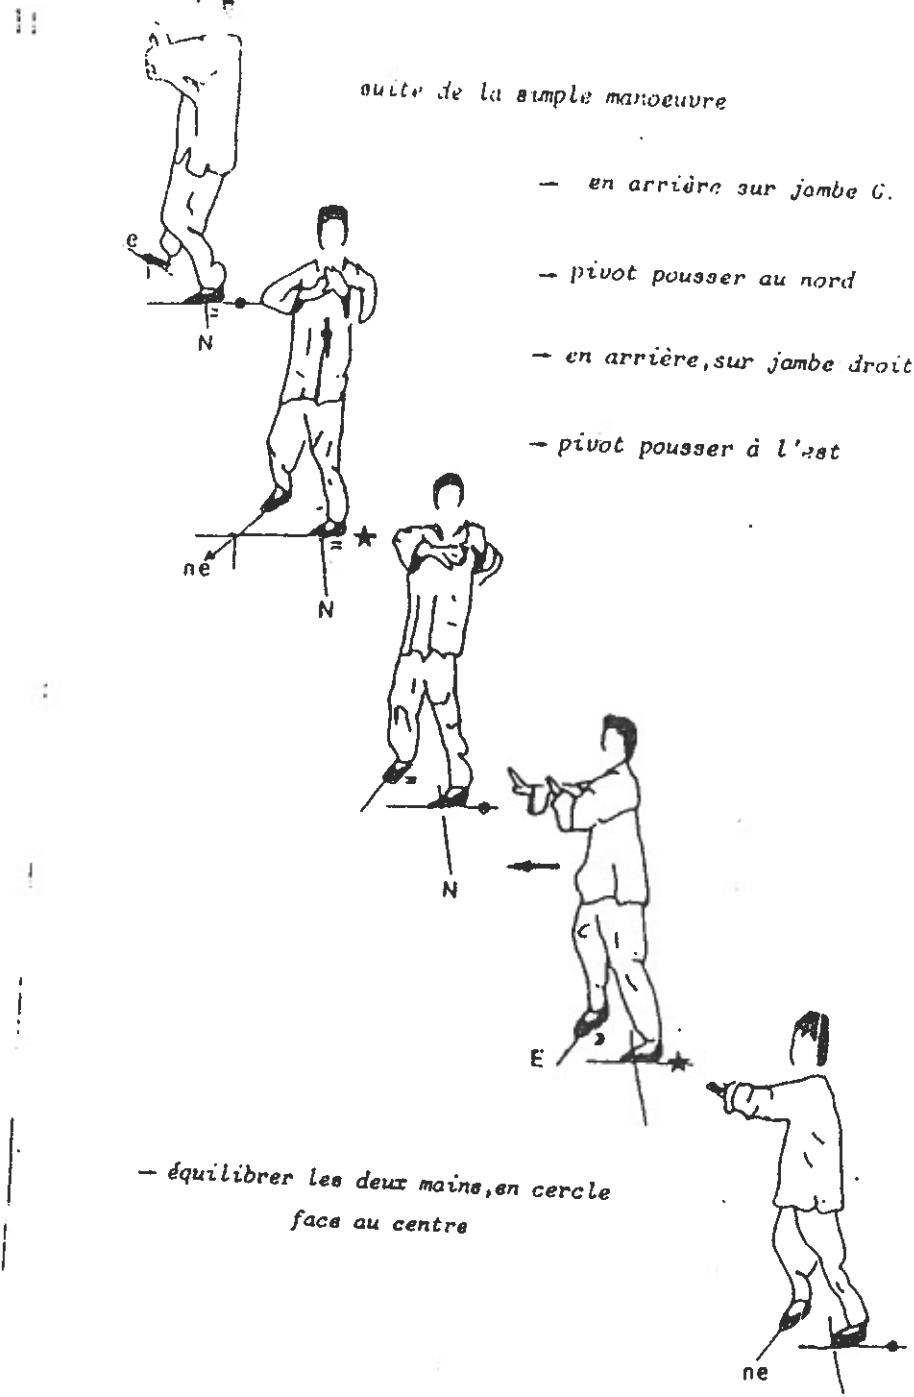

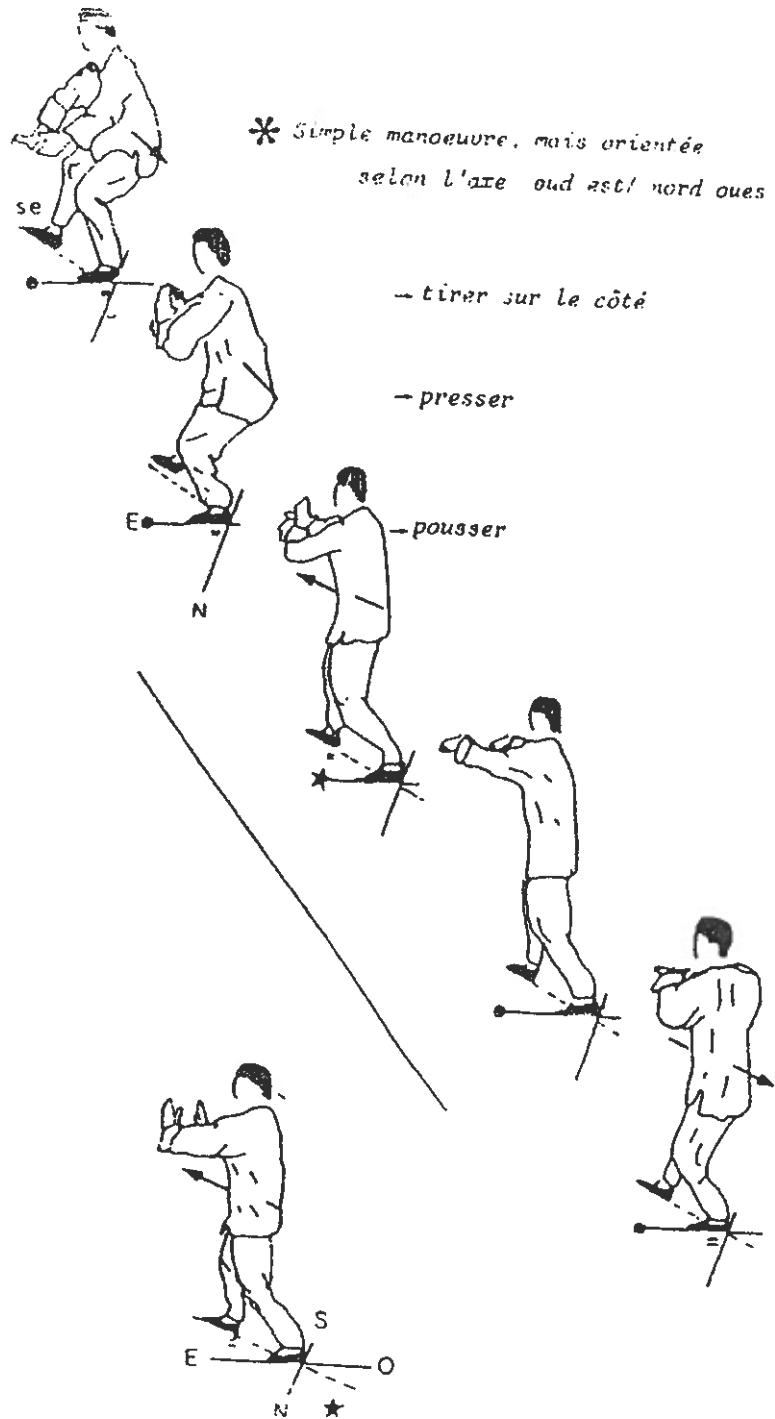

\* lever la main droite

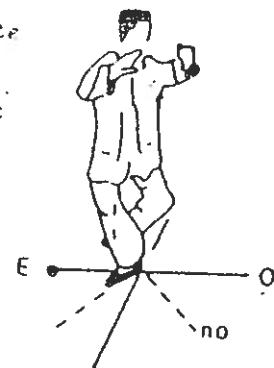

\* inverser les mains

\* pivot sur la jambe droite

faire face au nord ouest

\* pas direction nord ouest

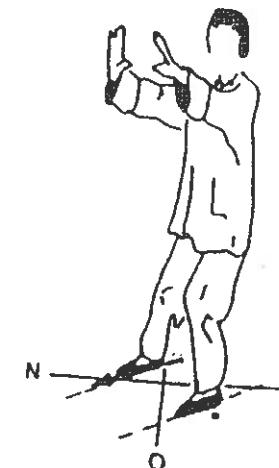

\* pousser, bassin face

nord ouest.

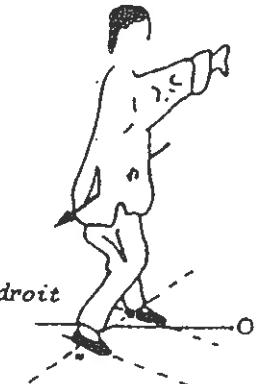

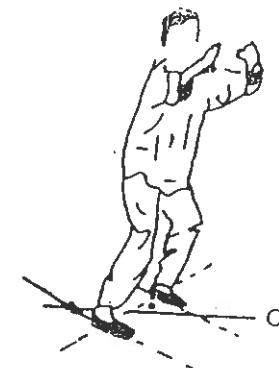

• déplacer le pied gauche  
parallèle au gauche

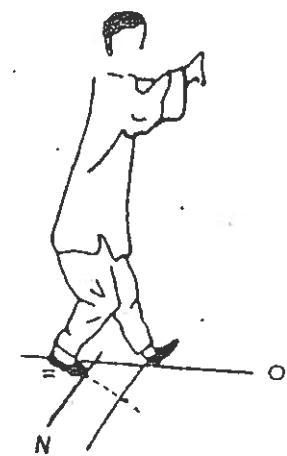

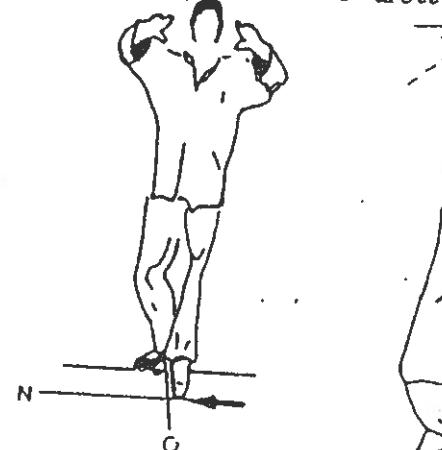

bassin face à l'ouest

• passage du poids sur le droit

• ramener le pied gauche dans l'alignement ouest

• ramener la main gauche

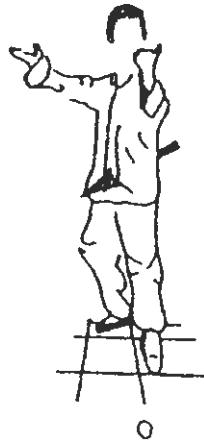

\* poing coude le coude

• pivot bassin  
nord ouest

• ouverture

19

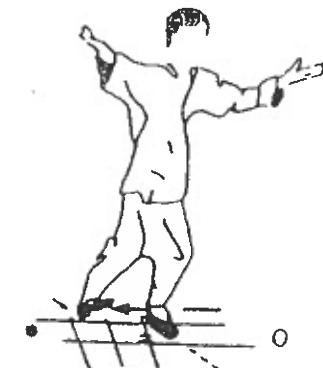

• pas en arrière

pied à 45°

talon premier

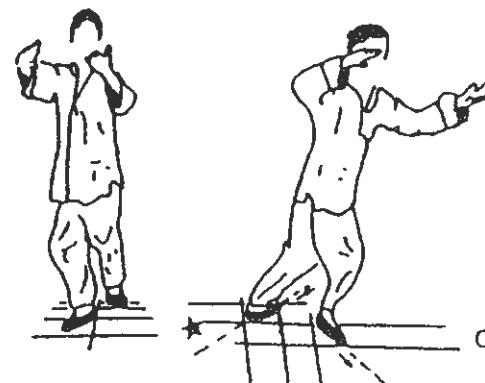

20

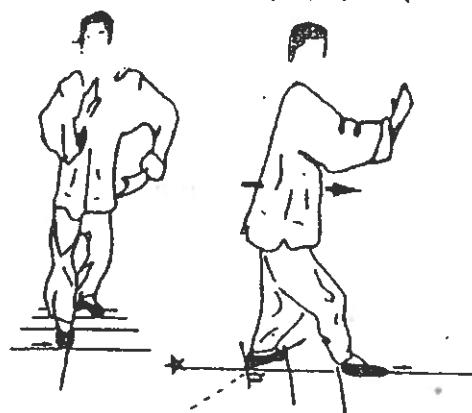

21

• pousser  
ramener :bassin  
.pied

fin, de face  
main centrée.  
poids arrière.

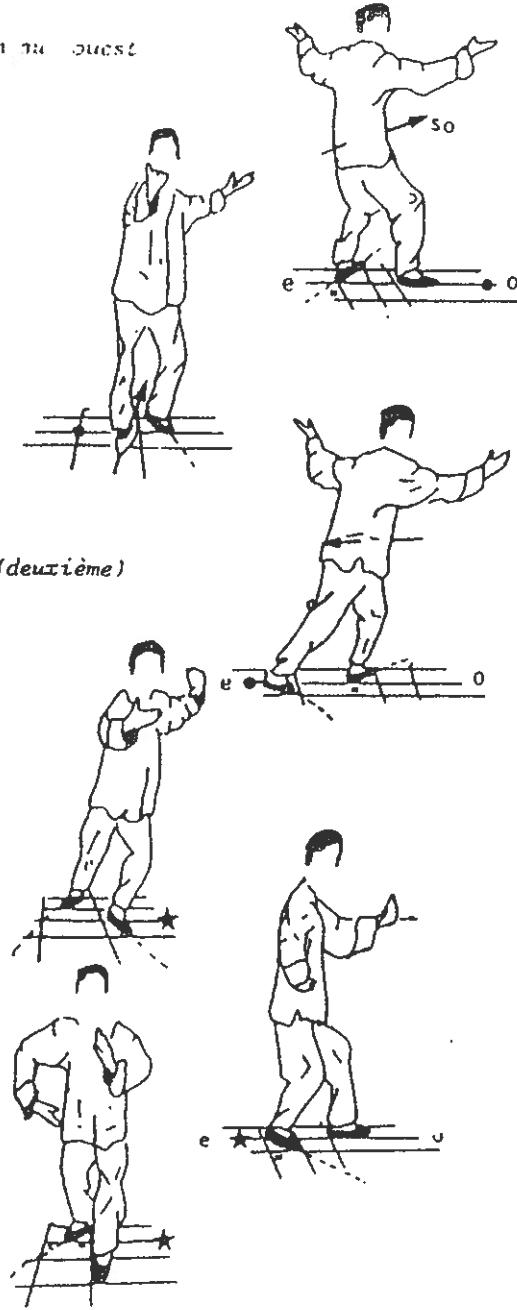

• ouverture, bassin au ouest

passer le pied droit,  
dans l'alignement

2

• pas en arrière (deuxième)

• pousser

• ouverture • ouverture

• pas en arrière

3<sup>e</sup> pas ↗

• ouverture

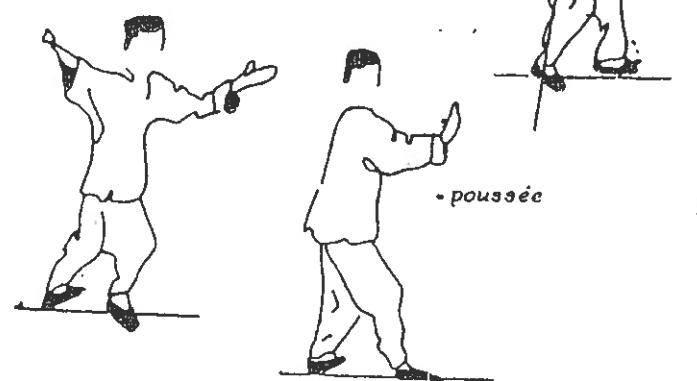

• pas en arrière

• poussée

4<sup>e</sup> pas ↗

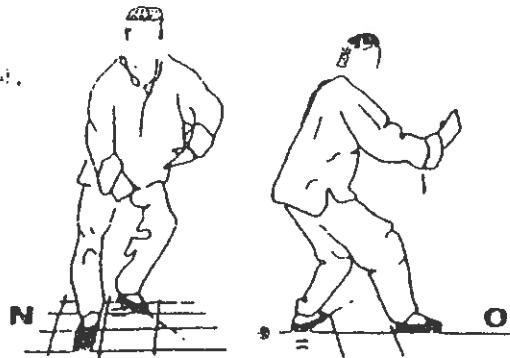

dernier pas  
arrière

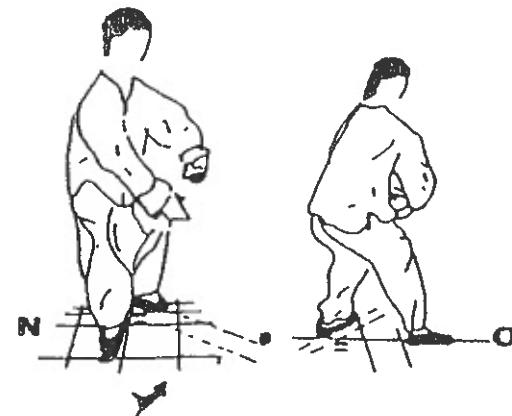

• poussée

5<sup>e</sup> pas ↘

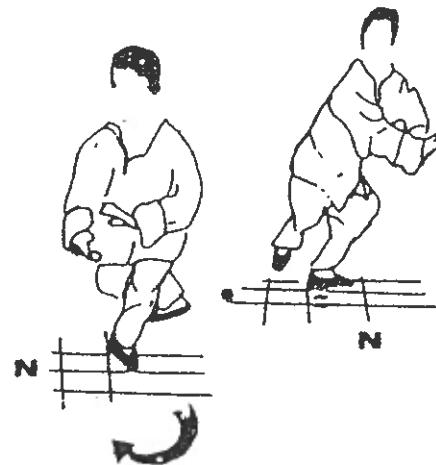

• abaisser main et pied.

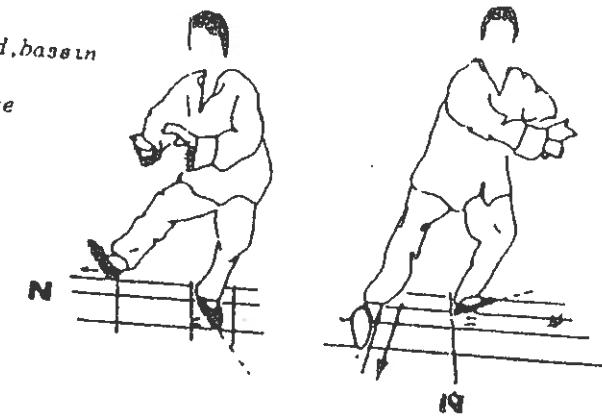

\* inversion des mains  
pivot 45° gauche

• grand pivot 135°  
sur jambe gauche

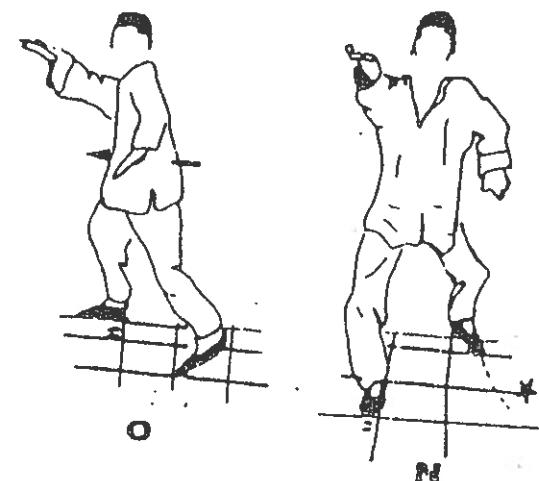

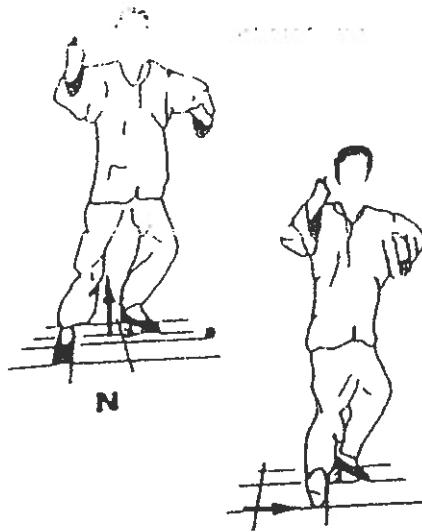

• pas vers le nord, bassin  
de face

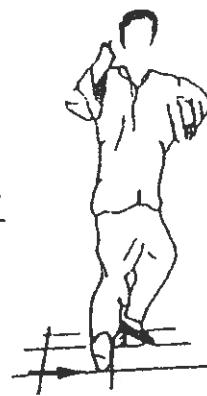

\* vol diagonal

• main devant épaule  
niveau yeux

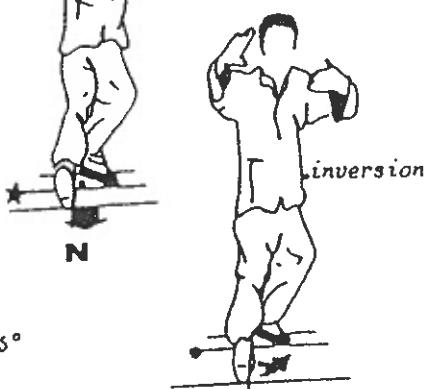

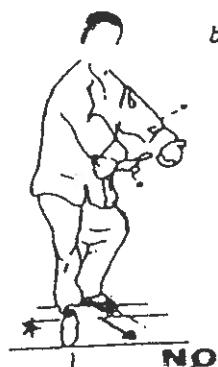

\* tirer sur le côté

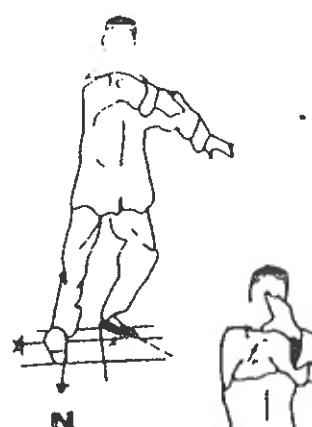

- ramener le pied droit  
\* lever les mains

\* inversion  
bassin nord

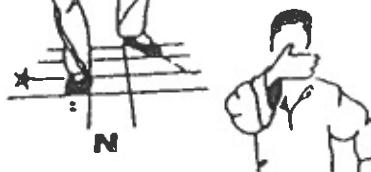

31

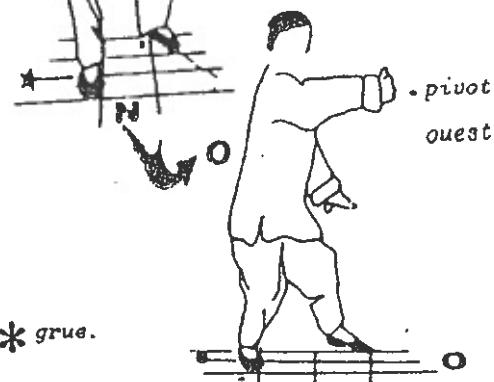

\* pas au nord ,coudre première

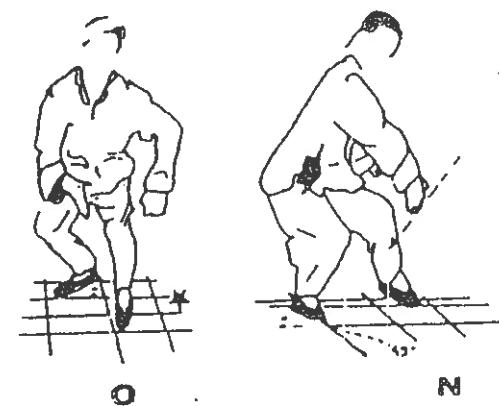

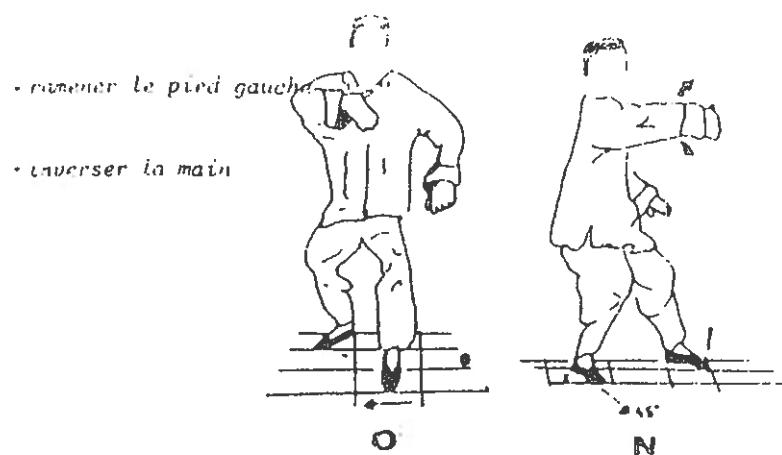

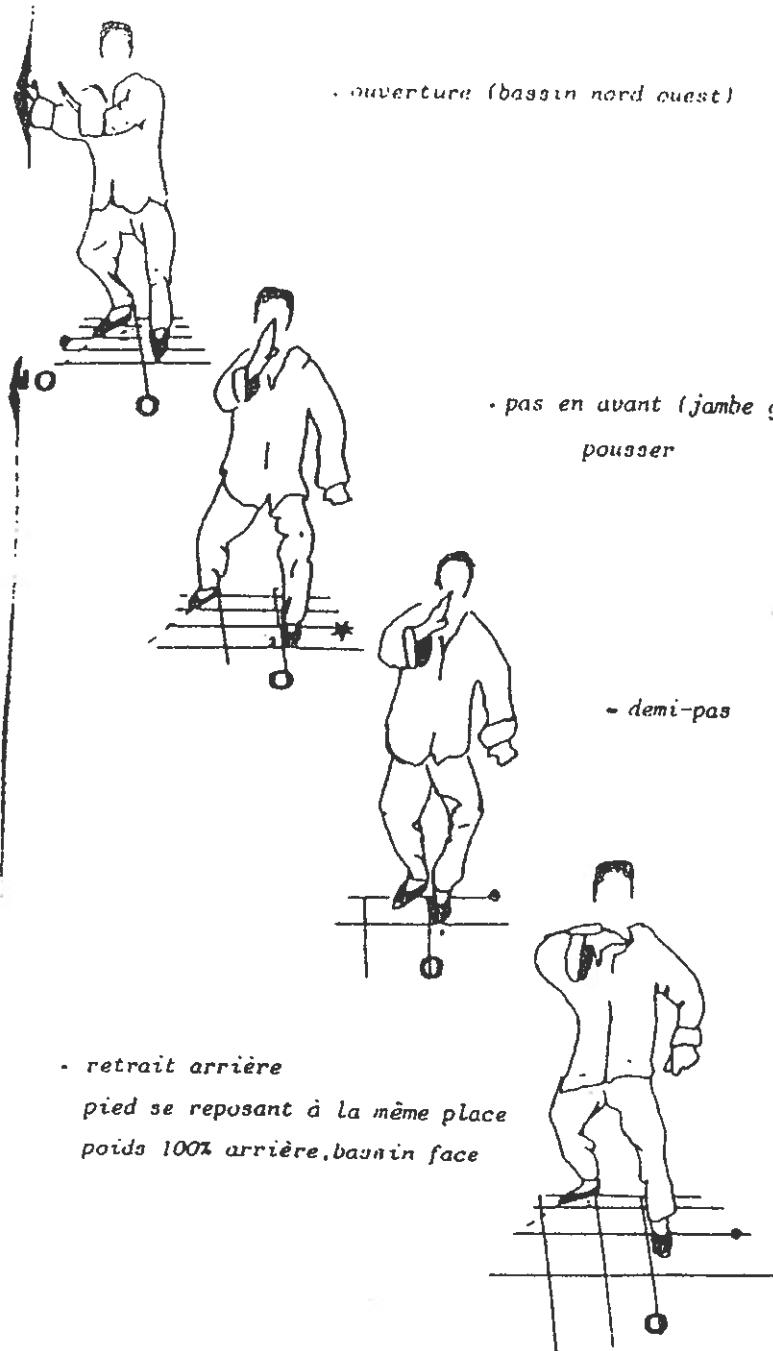

- coup de coude  
pouce gauche sur coude.

- simple  
paradis,nord

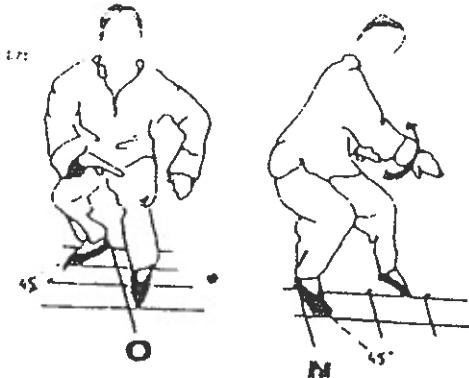

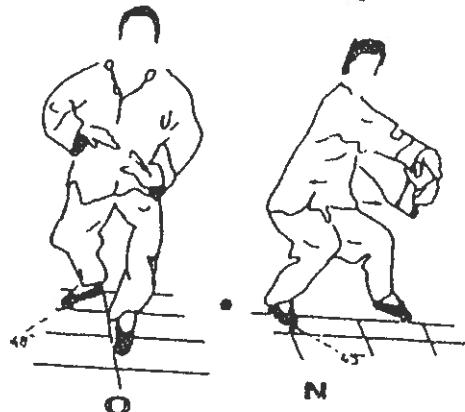

\* aiguille dans la mer

- main droite pointant vers le tibia
- pied gauche reposant sur la pointe
- poids sur la jambe droite

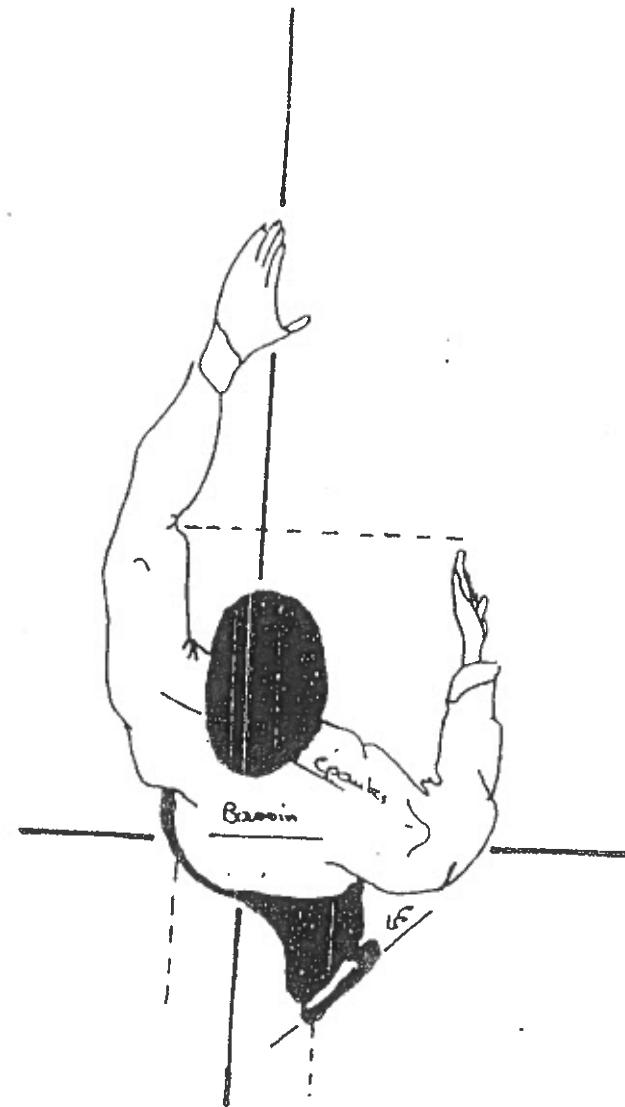

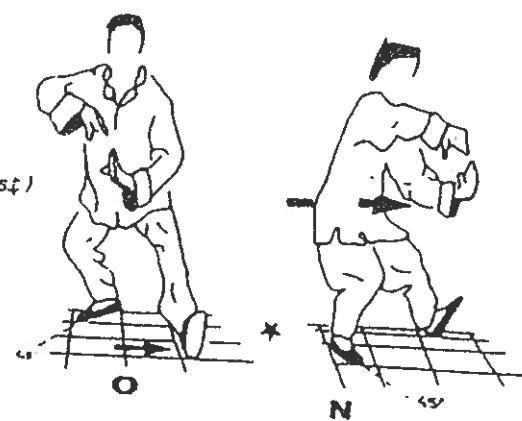

- inversion de la main droite.
- poids arrière

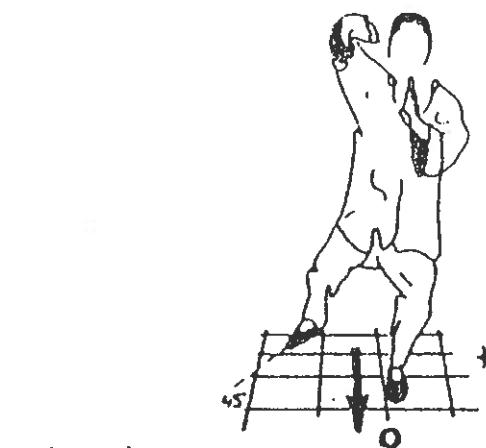

- amener la gauche au centre
- poids arrière

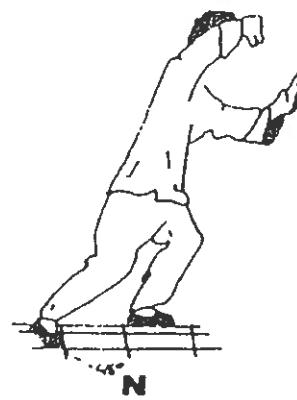

- pas en avant (ouest)

\* "C'est à dire traverser le dos"

• pivot  $90^\circ$  pied gauche

• pivot face au nord  
• poids sur pied  
gauche

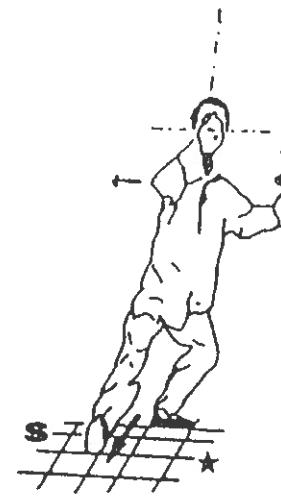

• pivot face est  
• présenter le cuode  
dans l'axe:

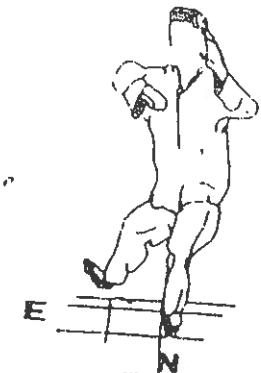

• pas en avant (est)

- le poing passe dans l'axe
- niveau front
- quand le talon gauche se pose
- pied droit face est

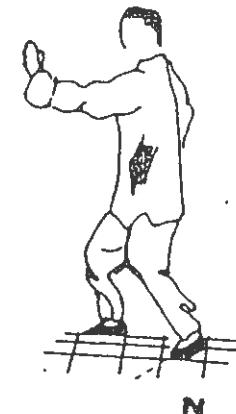

E

E

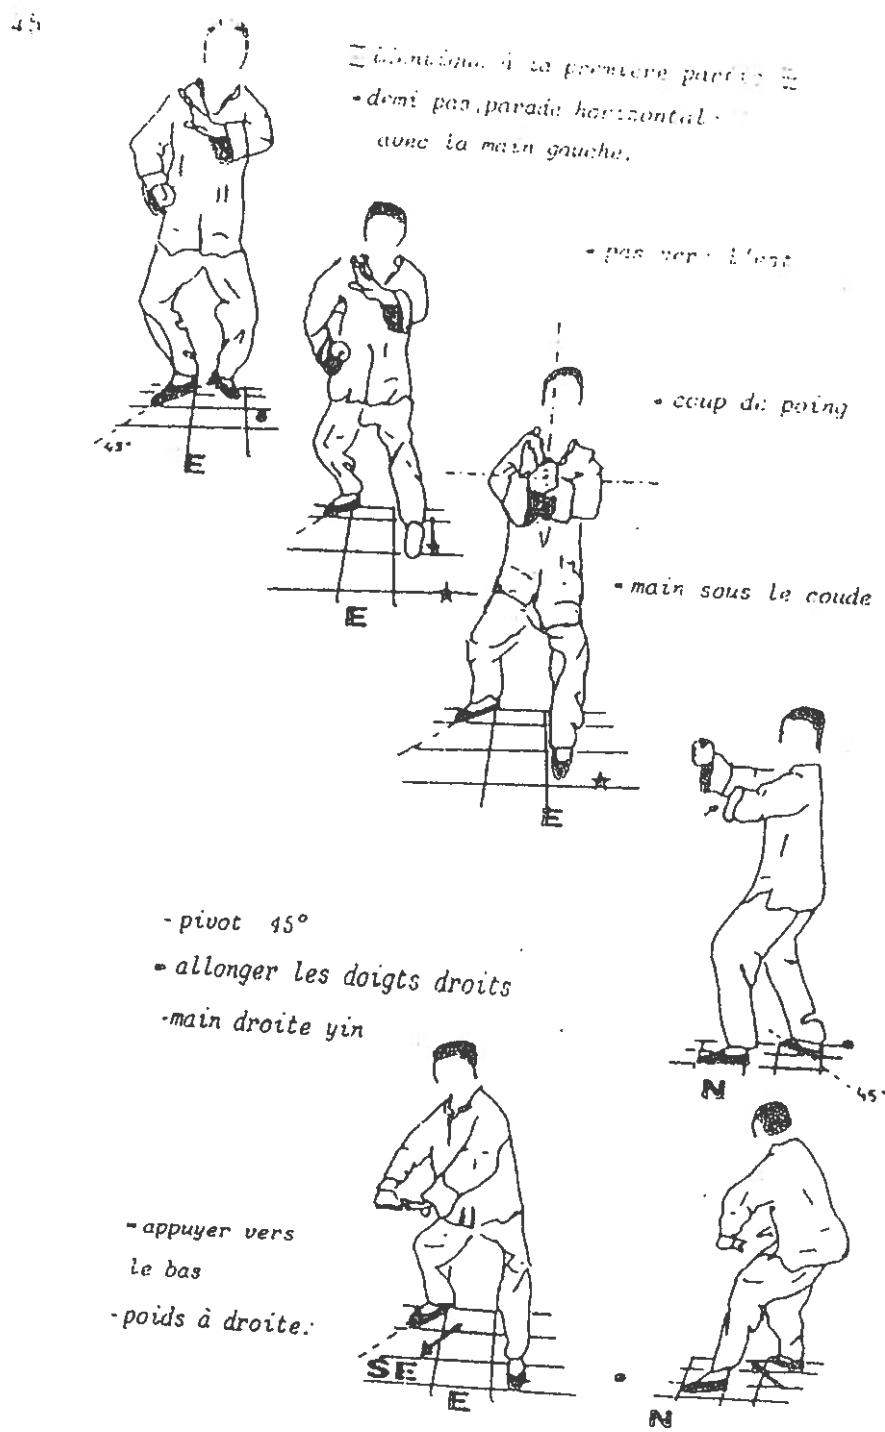

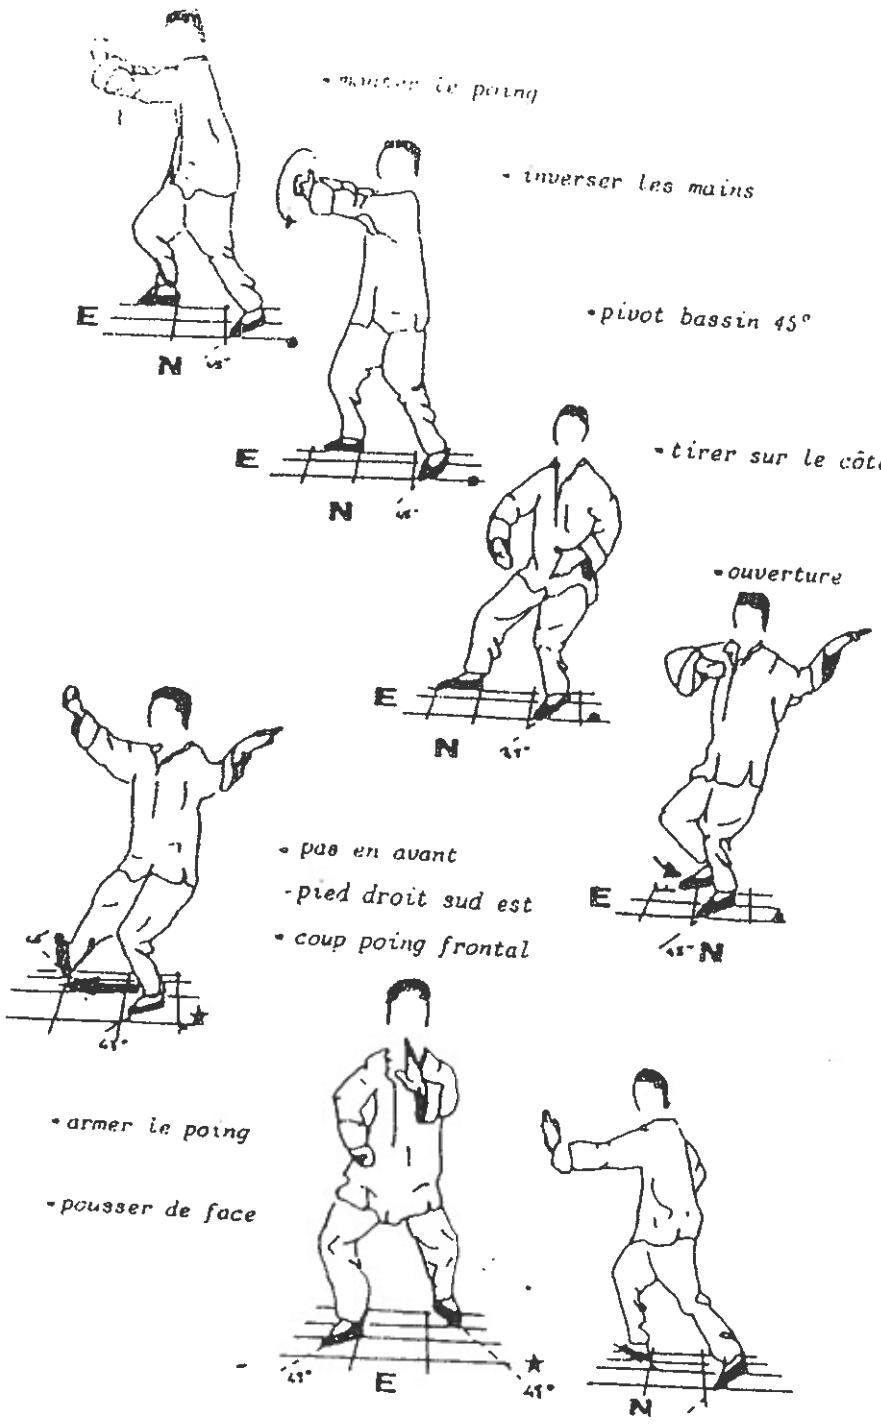

E

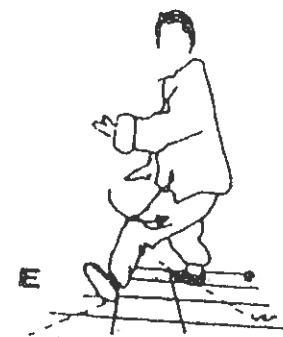

N

- ramener bassin, pied gauche, armer le poing
- pousser dans l'axe:

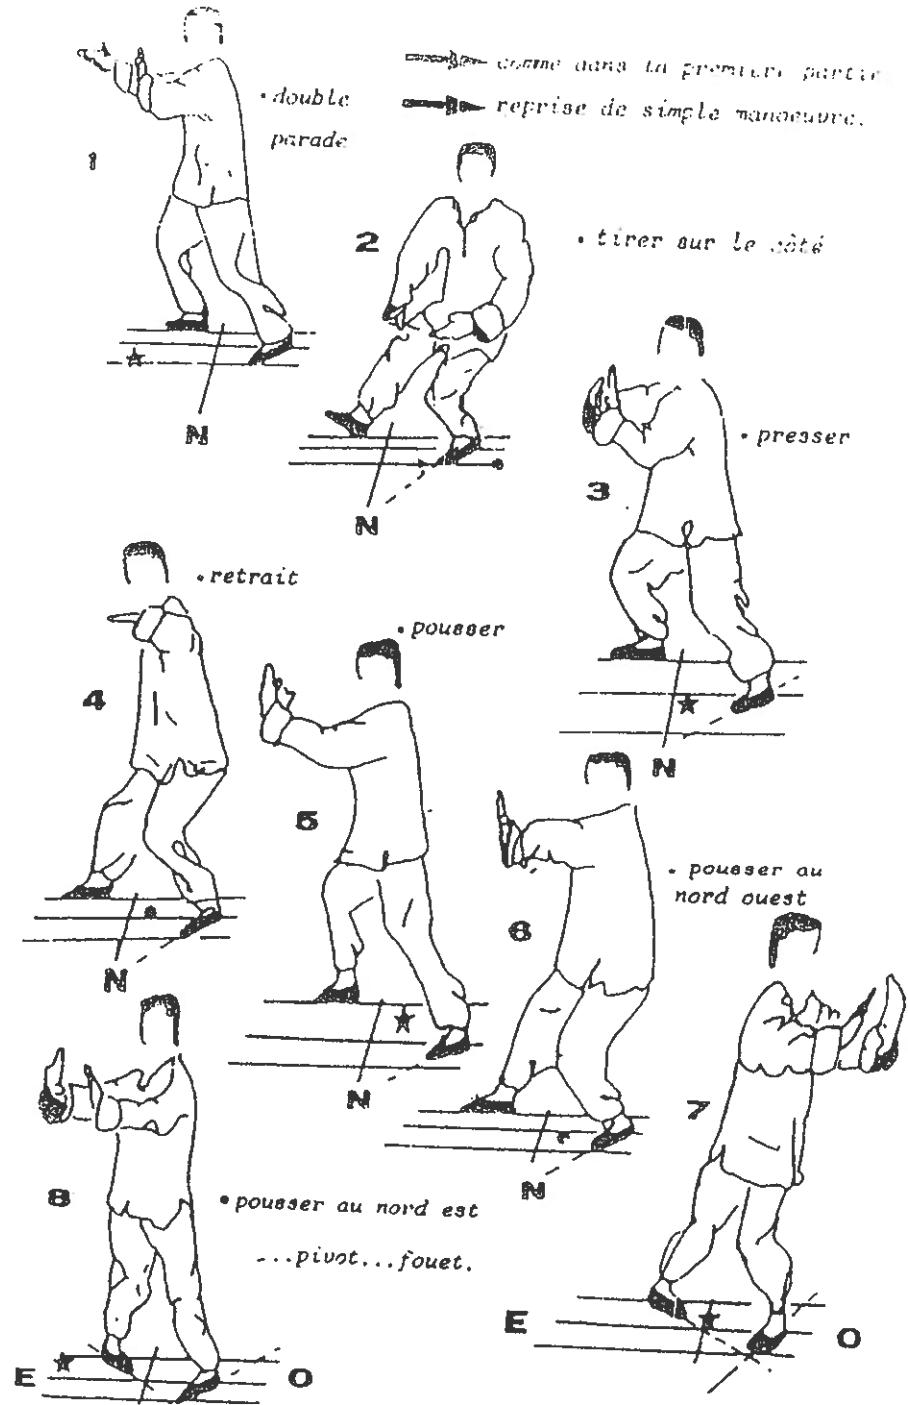

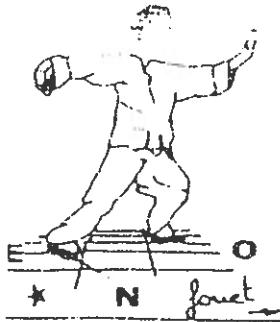

• l'ouverture des mains  
pivot nord est

\* vol diagonal direction  
nord est

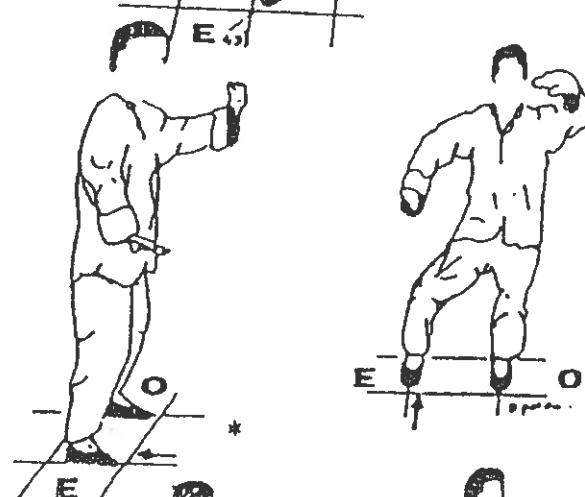

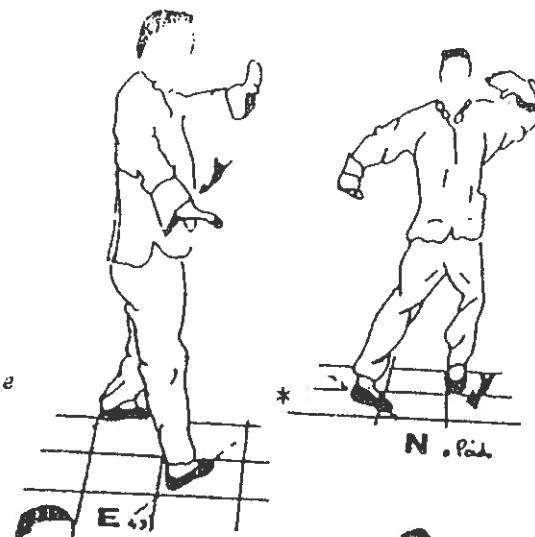

• amener la main droite, par  
l'extérieur, le pied droit ,pivot  
et bassin face à l'ouest.

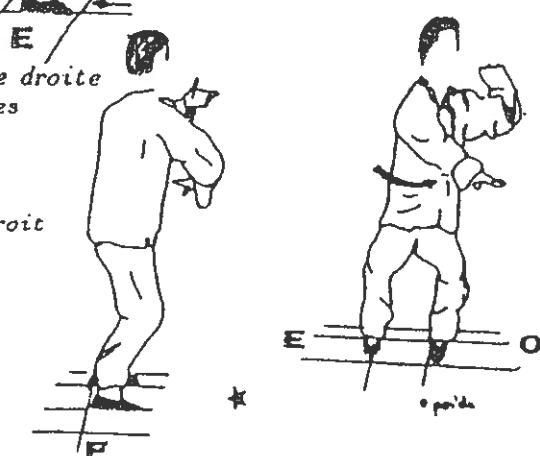

- pivot sur la droite
- poids à gauche
- pied gauche 90°

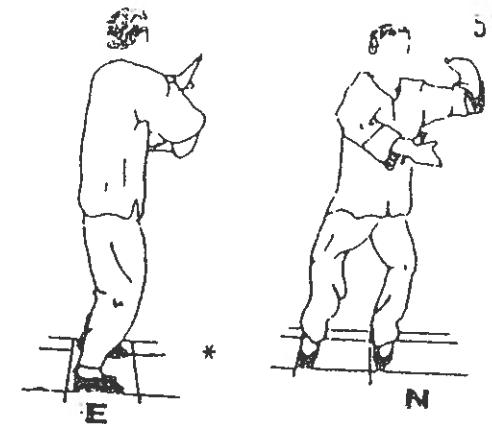

- ramener la jambe droite
- pieds parallèles
- bassin à 45°
- amener le bras droit
- face à l'axe.

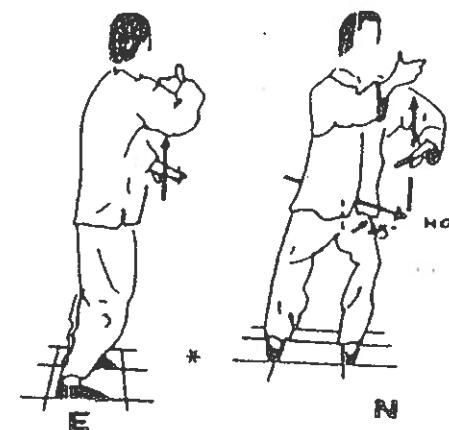

53

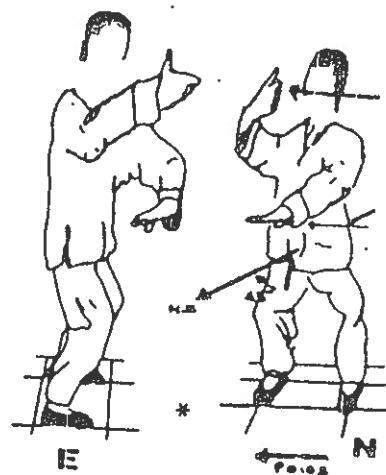

- inverser la main droite

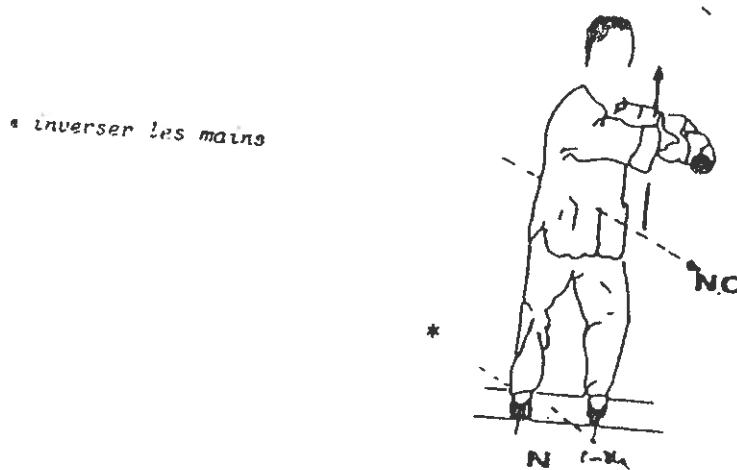

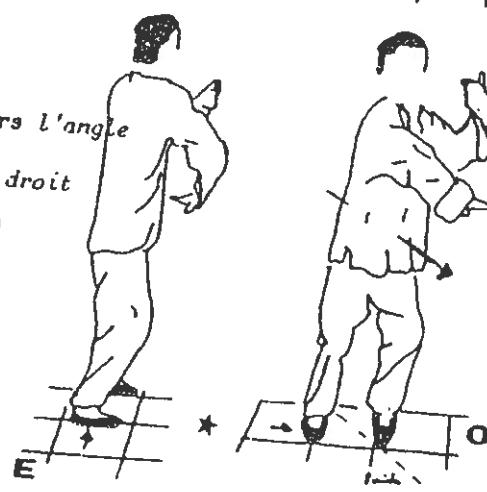

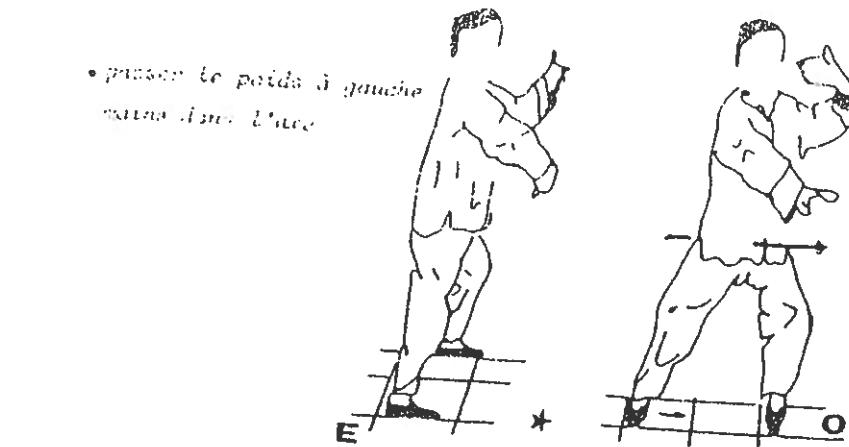

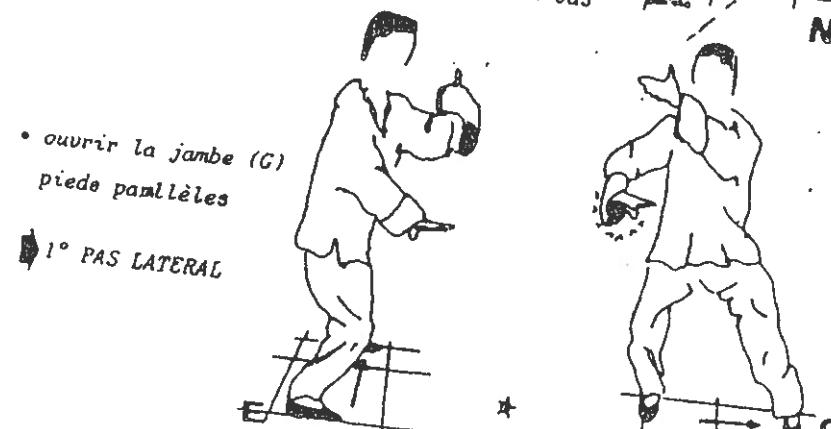

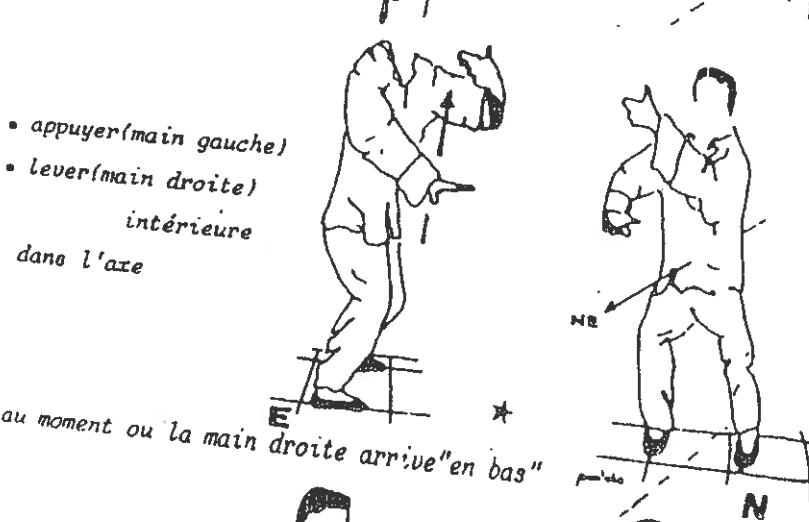

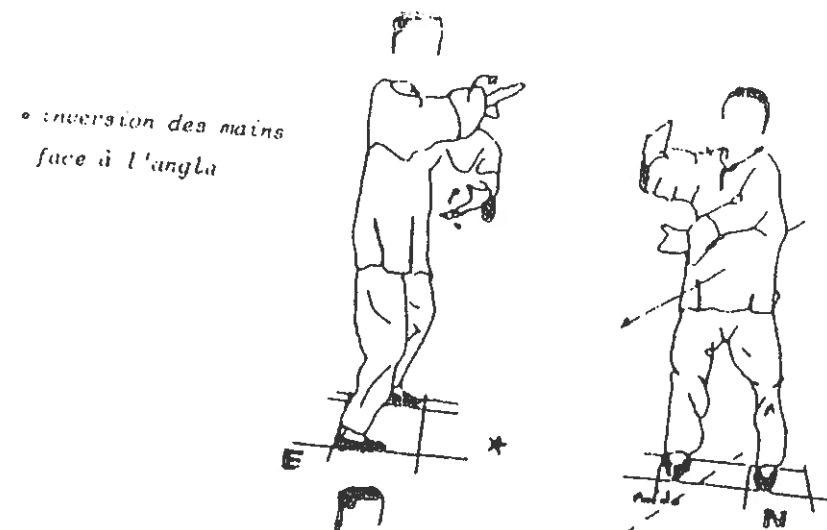

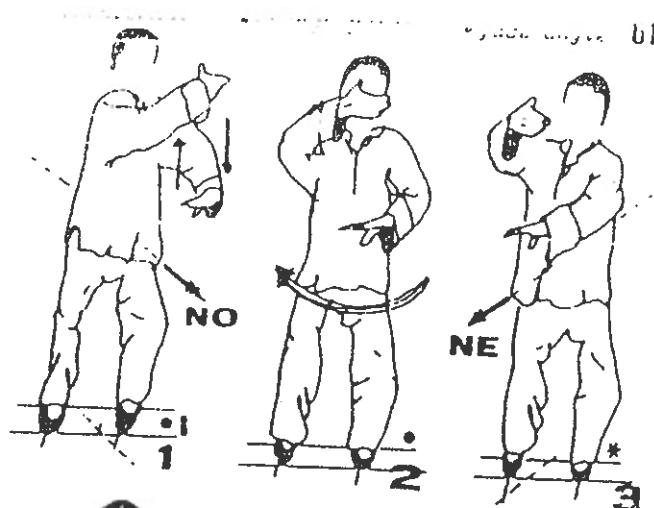

- la main gauche descend
- la main droite monte à l'intérieur
- face à l'angle

- transférer le poids
